Dear Sirs:

I recently received a copy of your 1987 report and am impressed with the scope and quality of the research which you support. I am writing to inquire regarding your application procedures for Grants-in-Aid. My program of laboratory research has recently developed a number of squamous carcinoma cell lines from tumors of Head and Neck origin and we have made the novel observation of specific karyotypic abnormalities in these cell lines. We hope to pursue these observations, particularly at the molecular level.

I would be grateful if you could send me the appropriate information regarding your Grants-in-Aid program and any application forms necessary. Thank you for your consideration.

Sincerely yours,

Eric P. Lester, M.D.
Associate Professor
Division of Medical Oncology
and Hematology
